Update from M.D. of Foothills Div. 4 Councillor Suzanne Oel

Dear Residents,

In an effort to **keep you informed** about Div. 4, the M.D. of Foothills, and to give you a recap of the latest information for 2014, I have worked to update my website with a summary of info, photos, documents and links... You can see my latest news, committees & boards, meetings and lobbying efforts - which are captured on the Home, About, FAQs and News pages.

Please visit: <http://www.suzanneoel.com/> to see information and news about topics which affect our area.

Request for your help on information gathering for our Foothills Flood Mapping:

The M.D. of Foothills is working to create a flood-overlay on our maps from the 2013 high water marks. We are looking for accurate data, photos, etc., to inform the mapping done for **Div. 4**. Please contact me or Rob in our GIS department if you have any information/photos of Fish Creek, Priddis Creek, or the Priddis Creek tributary to Loon Lake. Rob: 403.603.6217

Wishing you all the Best in 2015! ☺

Suzanne Oel
Councillor, Div. 4
M.D. of Foothills
